“GEOVANI PROMOSSI SENZA CONFINI”

HEIST-OP-DEN-BERG, BELGIUM

SATURDAY 02.10.2010 - SATURDAY 09.10.2010

Hiiii!! This year from the 2 to 9 October I spent one of the best week in my life. I have to say that the first day I was not so happy, maybe because this was my first experience of exchange and the

first time that I went abroad and meet people with different customs.

The following days I spent really good and funny times. We visited many monuments and Brussels, we went to the sea and we skated on the ice. I visited the Atomium and Mini-Europe too. I was the host of

a fantastic family, and my partner Jentè is very nice and fanny. The family treated me like a daughter, they helped me to speak good English and it is thanks to them too if today I write this letter without big problems. I believe that this experiences will changes the life of the people that try there. The exchanges are also nice because you can learn a few words in the language of you partner, “Ik hou van jou” that means “I love you”, this I’ve learned. Many people have asked me how I fell about this trip, I have always said that at first may seem all a bit difficult but at the end this will be one of the best ever trip. I didn’t think that this experience could give me so many emotions and I grew found of Jentè and her family. I don’t want to think that I’ll never seen more they, because they were my world even if only for a week
