## “GEOVANI PROMOSSI SENZA CONFINI”

HEIST-OP-DEN-BERG, BELGIUM  
SATURDAY 02.10.2010 - SATURDAY 09.10.2010

The travel is a great experience because you can see a new life style and learn a new way of communication.

When I came to Belgium, i realized that the communication is a common good and it is very powerful. This is happened by the meeting with Bernadette, with Minister of education Pascal Smet and With Lord Mayor Luc Vleugels.

We saw the national Television Station and over there we understood how it works.

I think the television is one of the best way to communicate in the world because it is fast and clear. The art is a kind of communication, too because it expresses our feelings. We see it in the Rene Magritte museum.

His pictures have a lot of meanings and sometime they are very hard to understand.

Naturally we understood the importance of the language: all pupils stayed in a Belgian house so the only way to communicate was English.

After we learned all this informations we tried to express and communicate our feelings painting a T Shirt. It was so funny and interesting by the way we saw a lot of important places during this week like the European Parliament, the Flemish Parliament, The Flemish opera house and the cities of Brussels, Leuven and Antwerp.

This week was one of the best in my life and i'll never forget this experience
