Monday, Nov 5th

Italian host families and teachers will meet their guests from Heilig Hartscholen at Capodichino Airport, in Napoli. (11 am)

Italian teachers: Maria Grazia Serpe, Rosa Marrazzo.

Pupils are welcomed at school by the headmaster, Mrs Principe.

Tuesday, Nov 6th

We meet at 9:00 at Bar Fiorillo, Ercolano to reach the Excavations of the old city of Pompei, the ancient Roman town which was buried by the eruption of Mt Vesuvius in 79AD.

Pompeii was lost for nearly 1700 years before its rediscovery in 1748.

Since then, its excavation has provided an extraordinarily detailed insight into the life of a city during the Pax Romana.

Today, this UNESCO World Heritage Site is one of the most popular tourist attractions of Italy, with approximately 2.500,000 visitors every year.

The Università Popolare del Musical e dello spettacolo, con sede in Boscoreale, and the headmaster, Ms Ina Perna, have offered us a free guided tour of the old Roman city. We will be guided through the old decumani and cardi by an official guide of the archeological site.

Italian teachers: Carla Cante, Roberto Raiola

Free afternoon with hosting families.

Wednesday, Nov 7th

We meet at 9:00 at Bar Fiorillo, Bus leaves for Napoli.

Teachers and students will spend the day touring the city centre of Napoli.

Saturday, Nov 9th

Belgian students and teachers spend the day with their hosting families.

Hosting families may arrange a trip to the top of Mount Vesuvius. It is one the best known volcanoes on earth; it dominates the Bay of Naples with its characteristic cone. It is a typical example of a volcano in a volcano made by an outer broken cone, Mt. Somma (1133 metres) with a crateric belt most of which is destroyed. In it there is a smaller cone, the Mt. Vesuvius (1281 metres), divided by a valley named Valle del Gigante (Giants Valley), a part of the ancient caldron where in a later period, perhaps during the 79 A.D. eruption, the Gran Cono (Great Cone) or Mt. Vesuvius arose.
